Professional Experience

Chubb Limited **Philadelphia, PA**
COG Global Treaty Co-op (Controllership) *Mar - Sept 2026*

- Reconciled 99% of gross written premium between Sapiens and the general ledger on a $15B+ book, investigating timing differences and facultative contract errors and documenting exceptions for review
- Automated settlement preparation in Alteryx with the Technology team across 3 business units and 10+ territories, reducing preparation time 60%
- Coordinated broker and reinsurer inquiries on documentation requests and settlement discrepancies, maintaining a follow up tracker that reduced overdue responses 30%

GoTrust **New Delhi, India**
Product Management Intern *May - Oct 2025*

- Analyzed customer needs and competitor offerings to refine product positioning and demonstration content, supporting a launch campaign that tripled qualified inquiries
- Gathered customer and reseller feedback and helped develop guided setup and clearer product guidance, reducing onboarding time 45%

Leadership & Extracurricular Activities

Client Portfolio and Financial Planning Simulation **Philadelphia, PA**
Independent Project *Sept - Oct 2026*

- Developed an investment policy statement for a hypothetical $1 million retirement portfolio, translating spending needs, liquidity requirements and risk tolerance into allocation guidelines
- Compared three stock, bond and cash allocations under equity selloff, rising rate and withdrawal scenarios, evaluating drawdown exposure and rebalancing requirements
- Prepared a client style presentation explaining allocation choices, investment costs and tradeoffs

monday.com (MNDY) Short Valuation Thesis **Philadelphia, PA**
Personal Project *Sept 2025*

- Conducted equity research on monday.com using an Excel DCF model and comparable company valuation, estimating $108 per share and roughly 42% downside as of September 2025
- Ran scenario and sensitivity analysis on revenue growth, operating margins and discount rates across bull, base and bear cases, identifying customer retention and margin expansion as risks to the short thesis
- Wrote a two page investment memo on valuation, catalysts, downside risks and what would change the call

PwC Challenge Case Competition **Philadelphia, PA**
Winning Team Captain *Apr 2025*

- Led a four person team to first place, developing an ESG scoring framework and M&A advisory recommendation that addressed auditor independence constraints

College Fed Challenge **Philadelphia, PA**
Core Researcher, Inflation *Mar - Nov 2025*

- One of two freshmen on an 18 member team, analyzing inflation indicators in Stata with FRED and BLS data
- Presented inflation and interest rate scenarios, linking wage growth and producer prices to monetary policy expectations and explaining implications for bond duration and equity valuations

Perrin Research Institution for Human-Centered AI (UNESCO Policy Lab) **Philadelphia, PA**
Senior Editor for Educational Policy *Feb 2025 - Present*

- Lead a 25+ member global editorial team producing research and interviews on AI ethics and education policy
- Manage an AI literacy textbook reaching 1.2M+ students, with longform work cited in U.S. regulatory reviews
